GAMES YESTERDAY. Boston, 8; Washington, 0. New York, 8; Philadelphia, 5. Baltimore, 6; Brooklyn, 2.

GAMES TODAY.

Chicago at Washington. Cleveland at Baltimore, Pitisburg at Boston, St. Louis at Brooklyn. Louisville at New York. Cipclunatt at Philadelphia

Boston, Aug. 18. -A long string of zero was marked up against Washington in the game with Boston at the South End this afternoon. Nothing but blankety-blanketyblank verse resulted in their vain efforts to find Collegian Lewis, who officiated in the best game of the senson. But three paltry singles were made by the visitors, and one of these was a mere scratch.

Opposing the Amherst boy was Winfield Mercer, who was raised in this section, as It was from the precincts of the Bay State that Mercer found his way into the major league. He has always been effective in this city, but this afternoon his old-time cunning seems to have left him. His support was not the best, as Wrigley, O'Brien and Abbey were responsible for three of the Poston runs. Al Selbach made two of the Washington hits, gelting a double in the third, and beating out a hit to Collins in the cirtain inning. The home team played a great fielding game. and up to the eighth inning not a Washington player reacted third base.

Boston admirers presented him with a magr. Keeler, r. f. nifficent diamond pin. The only 'Tuo most forgot he was in the game.

For the first three innings Mercer h matters his own way. He served Bost after the third with the slow, coaxing to of which he has great control, and it is take long to pile up fifteen single The nearest Washington came to scori was in the eighth inning. Selbach open the inning with a single to Collins. Bronext litter, planted one way down in le field. Selbuch, thinking the ball was sa started for the plate. Duffy made a magni cent catch, and before Selbach could re to second be was thrown out. The bas were filled later, as Lowe fumbled M. Gaire's grounder and Lewis hit Tucks With this change to save a shut-out, O'Bri hit a weak grounder to Lowe, which tired the side

The first of Poston's scoring began the second inning. Duffy started with nince. Lowe mit a fly straight into T Brown's hands, but the Washington capt. Was too anxious to hold Buffy at th and dropped the ball. Later Low c madbloff steal for second. McGuire threw cutch him and O'Brien in retur threw wild, which scored Duffy with

runs were made after this until the last bair of the fifth. It was in this iuning "Win" Mercer was hit the hard-After Tenney had flied out to De Mentreville Long was caught on the wrist with a swift insheat which forced his reand everyone thought the ball hit him in the temple. A physician was called and it was found that some of the small bones in the weist were broken. Stivette was put in to run and Allen took his place in the held. Stahl hit to deep right for a luse. Abbey let the ball get away from him, which scored Stivetts. Hits followed in succession by Duffy, Collins and Lowe, which actted four runs in the

Two more rons were scored in the mixth. Wrigies let Hamilton's grounder get into the outfield. Tenney singled to right, and a safe drive of Stabl to center scored two rons. The home team was blanked in the seventh, and scored the last run after two men were out in the eighth. Allen hit safely, a fumble by Writtley and Duffy's third hit sent Affen

Many thought the Senators would rally in the ninth as they did on Tuesday.

A Reliable Remedy.

The object of opium in medicine is to deaden and paralyze the nerves temporarially to stop coughing or pain. Nothing promotes the opium or morphine habit so much as cough mixtures that contain this nefarious drug. Brazilian Balm does not contain a trace of it, but is a true balsam that removes the cause of the trouble. Mr. W. T. Barber, 1001 N. 43d St., Philadelphia, Pa., says: "Brazillian Balm not only quickly removed all trace of my cold but had a generally reviving effect upon my whole system which has been permanent. I recom-mend it as a most valuable and thoroughly reliable remedy."

After Abbey had flied to Bamilton, Writing was safe on Allen's wild throw etting as far as second "Duke" Farrell ame to the but in place of Mercer, but was retired at first, and Selbach ended the game on a fly to Duffy.

The Boston management tonight sold the release of catcher Yeager to Provi-dence of the Eastern League. Manager Billy Murray, of Providence, was at the game, and is trying to arrange a deal for one of Boston's pitchers. The score:

CHANCES OF THE SENATORS

A Condition and Not a Theory Confronts Them.

Medames Said to Have Been Sold to the Bostons for Ontfielder and a Cash Consideration.

The riddle propounded to Oedipus by the Sphiax was not in it with the problem as to What position the Washington Base ball Club will wind up the present season in, nor is it the purpose of this article to attempt the solution of the proposition A little gossip as to the possibilities of the situation may not, however, be amiss.

The fact that numerous theories have been advanced, only to be knocked into a cocked hat, is neither here nor there. As a well-known New Yorker once remarked, "Hitting the ball at the right time is what wins games;" so the Senators at the present time find themselves confronted with a condition, not a theory, That the Senatorial concertes can play

the game according to Hoyle, their Winming streaks that shine forth with the beauty of a rambow bear witness. the other hand, chrome-colored work has been handed out in chunks at times, the result being a falling off in percent age for the team and a corresp. ing off in the hopes of the fans that their representatives on the diamond would occupy a snug berth in the first division. However, now that all thoughts of a first division position have been laid aside

the question suggests itself, was it not too much to expect of the team? The club is practically the same as last year, and while it can pluy very good ball it was hardly reasonable to suppose it could per form the feat of jumping into the first division without having been strengthened Since returning from the last Western trip the Senators have braced up wonder fully and it is yet possible for them, by keeping up the good work, to climb to B. H.PO.A.E. near the top of the second division, which would be a creditable showing for the

season after all.

A long stretch of games on the home grounds will begin this afternoon with the Western teams, most of which are considerably weaker than the Statesnen, three of them being less than 100 points away, and it only remains for the home team to continue the good work of which they are capable, and they will hid eleventh place good by, it is hoped, forever, as it will then be possible to strengthen the team by the addition of new players, and then make a try for that long-sought goal, the first division, with greater prospects of landing there.

There is talk among the ball players of the Washington team that McJames has been sold to the Boston club for a cash consideration and an outflelder. Be this as Orth 0 0 0 0 0 it may, the home club will not be weak ened very much, and the chances are notat all. The new twirlers signed can easily fill his shoes, and perhaps land the Statesmen further up the list in the League race

DURYEA DEFEATS SISSON.

The Veteran Croquet Crack Falls Before the Washington Lad.

Norwich, Conn., Aug. 18,-Heavy rains this afternoon interfered somewhat with the croquet tournament here. Some in-teresting games were played. Young Duryes, the boy player from Washington. seat the veteran Sisson in the closest and most interesting game ever played on the grounds here since the national as sociation was founded, in 1882. The other boy player, Bird, of Baltimore, distinguished himself, beating Wably, of Washington, one of the best men in the

country, with ridiculous case.

Wrestling and Boxing. The athletic committee of the Washington Athletic Club is busy preparing for the big smoker to be given at their spacious clubbouse tomorrow night. They have secured same of the best boxing and wrestling talent in the District, for that occasion. Chief among the events will be the wresttrict, between R. Roy Mackey, of the W. A. C., and Sansuel Burton, of Philadelphia. This match is creating outle a stir, as both men are heavily backed by their friends, with odds on Mackey. In addition to the events above named, there will be three three-round boxing exhibitions and two six-minute wrestling exhimatch between Burton and Mackey will be to a finish,

Duty on Silk Ribbons.

The Treasury Department has ruled that silk ribbons are dutiable under the new tariff at 50 per cent ad valorem, as manufactures of silk, and that they are not dutiable as trimmings at 60 per cent. This is the first instance in which the lower rate of duty has been fixed. The dispute arose between the collector and surveyor at the port of New York, the collector maintaining that ribbons were trimmings, and therefore came under the rate of 60 per cent. The same controversy arose under previous tariff laws. and involves very large amounts of money

Minor Robberies Reported. The following robberies the police yesterday: Daniel Doody, of No. 1126 Seventh street northwest, re-ports the theft of \$8.50 from his cash register. William H. Bohm, of No. 826 enth street northwest, reports the theft of a gold watch from his home. W. W. Cruitt, of No. 1239 Sixth street northeast, reports the theft of a silver watch from his house. John J. Montgomery to Be Docked. The Montgomery has left Pensacola for New York to be docked and MR. GEORGE WATTS DEAD

The Well-Known Telegrapher Is Stricken With Apoplexy.

Seized With Illness in His Apartments and Expired Before a Physician Could Reach Him.

Mr. George Watts, a well-known telegraph perator, was stricken with apoplexy last evening at 6:50 o'clock in his apartments at the Eikton Hoteland died a few minutes after 8 o'clock.

Mr Watts had been feeling badly since Sonday but none of his friends had any fears of his illness resulting fatally. In fact, his condition was such that neither he nor his friends thought it necessary to call in a physician lie had rested quietly during the early part of the day and in the ofternoon he decided to get up for a while. When he got out of his bed, however, he found that his strength was failing him and called for help. Mr. Henry C. Wooden was the first to respond. He found Mr.

Watts lying on the floor in an unconsciocondition. Mr. Wooden called Mr. Martin Kain, another friend of the sick man, and together they placed Mr. Watts on his bed. Mr. Kain then burried to call a physician, but it was some time before one could be found, and then Dr. Bailey responded, but arrived only a few moments before Mr. Watts expired.

Dr. Balley gave certificate of death from apoplexy, and the coroner was notified. Mr. Watts was recognized as an expert in his profession. He was well and favorably known in this city, having been, for the last two years, in the employ of the Postal Telegraph Company, at the main office near Pennsylvania avenue and Four-teenth street. He had for many years served the Western Union Company as in operator.

Mr. Watts was born in Providence R f. but left that city shortly after he reached his majority. He leaves a wife, but no children. Mrs. Watts is at present out of the city, visiting Mr. Watts' father at Providence. Mrs. Watts and other relatives were notified last night by telegraph

of the sudden death of Mr. Watts. It is not probable that an inquest will be held, as Coroner Dr. Carr viewed the remains and concurred with Dr. Balley as to the cause of death. The remain will be sent to Lee's undertaking establishment where they will be embalmed and then sent to Providence, R. I., for

New York, Aug. 18.-There were no FALSE PRETENSES CHARGED

Charles Munroe Arrested on Complaint of Mr. Horning.

He Fuiled in a Tea Speculation and, It Is Alleged, Falsely Indorsed a Promissory Note.

Charles H. Munroe, a well-known man in this city, was arrested yesterday by Patrolman Warren on a warrant sworn out by George D. Hornung, charging him

with false pretenses.

Mr. Munroe conceived the idea when the tariff question was being agitated that a duty would be imposed on tea- and that this article would rise in price. He speculated and relying on his gains in expectancy sought to get some money

He went to Mr. Horning's office, and was ment of Benjamin A. Miller, a propertied who was known by both parties, that Mr. Horning would discount the paper. Mr. Munroe states that he secured the indorse ment of George A. Scott, and then took the note to Mr. Miller, but finding that gentleman tusy, be himself wrote Mr. Miller's name on the paper, relying upon his gains from the tea speculation to make

the note good.
Fating in his business ventures, Mr. fair grounds today resulted as follows. Monroe says that he could not neet the note at maturity.

Mr. Horning swore out a warrant, charge pretenses in pretending that the name of the note was the signature of Mr. Miller The friends of Mr Munroe will endeavou to have the case nolle prossed, and the

The Onestion of Suffrage Discussed by Influential Citizens.

A meeting of citizens interested in the extension of suffrage to the District of Columbia was held last night in the office of Mr. Thomas G. Hensey, The object of this meeting was to make arrangements for a larger gathering to be held about a month hence, and which will be a public af

Br Lee, one of the prominent gentlemen in the movement, said last night that the desire for the ballot in the District was much more extensive than is supposed. It will, of course, take Congressional action to dispose of this problem, but he said that ther would be an aggressive campaign in ection until the object of the move ment had been obtained.

Congressman Hopkins' Request. Congressman Hopkins of Illinois has re-quested the State Department to use its efforts to have returned to this country Lawrence M. Cottrell, of Illinois, who went to Madras, Iadia, and while there became insens and destitute. The consul general from London succeeded in getting Cottrell to London, but the latter refused to the Highland Terrace Apartments, Thomas Circle, 1401 Massachusetts avenue.

ARLINGTON

DINNER TO THE PRELATES. It Will Be Given at the University

Today. The dinner which was announced for yesterday at the Catholic University will be given today in honor of Arch-bishop Keane. Archbishop Ireland and the guests heretofore named in The Times will be at the feast, which is given by the

Very Rev. D. J. Garrigan, vice rector ; Archbishop Ireland has called at the ooms of the board of Indian mission schools in charge of Mgr. Stephan. Dr. Stephan is, however, out of town, the board being in charge of Mr. Fitzgerajd. One of the most interesting of the reports usually made at the meeting of the trustees of the university is that on the Indian mission schools under the

charge of the Catholic church One of the largest social bodies of the city is contemplating a reception to be given to Archibishop Keane. The final arrangements for this will be made at a meeting of the board of directors to be

AMONG THE WORKINGMEN

Stone Work on the Chicago Postoffice Disturbing Labor Unions.

Disruption of Friendly Relations Between Two Organizations Threatened.

It is quite probable that matters con nected with the building of the Chicago postoffice may lead to a disruption of the friendly relations existing between the tonecutters' and granite cutters' national organizations. Both these bodies, through their local unions in Chicago, are keeping a watchful eye on every detail pertaining to the construction of the building, and from the present outbok, no matter what influence prevails, organized labor will be

greatly benefited.
Some few days ago a committee representing the Soft Stone Cutters' Union of Chicago visited this city for the purpose of having a conference with the United States supervising architect relative to the matter, and now it is understood that some time during the latter part of the week a committee representing the National Granite Cutters will visit the Treasury Department for the same purpose. Although these two ommittees are working in the interest of organized labor, there appears to be a wide difference in their methods of ac-

complishing their object. The committee of stone cutters which was here a few days ago amounced that their object was to persuade the supervising architect to have all the material for the new postoffice building prepared for one in Cook county, His., by union labor and at union wages. The object of securing such a promise from the supervising architect was to prevent the possibility of the stone to be used in the construction of the building from being prepared for use on the postoffice by cheap labor at the quarries. In reference to this the visiting stonecutters, before leaving the city, said they were perfectly satisfied with the result of the visit. From this it would be thought that they had received some cons from the architect on the subject.

The granitecutters, however, take a very different view of the situation from that taken by the stone cutters. The onintain that all matters relative to the onstruction of the building have already been practically settled and do not place much faith in the announced purpose of the visit of the Chicago stonecutters. Thegran tecutters feel that the stone men have some other object in view, but whatever it is the grante cutters are confident that they will not be able to change or in any way modify the original specifications, proposed for the construction of the Chicago

postoffice, So far as the preparation of the material for the building is concerned, the granitecutters say that the specification call for granite, and that their national union, after a month's deliberation, de cided that all the quarrying and other work pertaining to the construction of the building should be done by union labor, at union prices. Under this agreement the granite cutters maintain that it matters not where the granite is prepared for use on the postoffice it shall be by union men

SHRINERS' BIG EXCURSION.

Handreds Unable to Board the

Steamer for Marshall Hall. The Mystic Shriners of Almas Temple and their friends, numbering about 2,000 in all, captured Marshall Hall last even ing. The occasion was the regular an nual outing of the local Shriners and it proved one of the most successful and enjoyable entertainments of the kind given this season to the historic Hall.

Unfortunately, only one steamer, the

Macalester, was chartered for the modation of the Shriners and their friends. and as a result more than 500 prospective excursionists were left on the wharf. Capt. Blake, of the Macalester, saw the situation and tried in every possible way to charter another steamer to take the over-flow crowd down to the Hall, but failed. Many of those who went to the wharf were determined to make the trip even if it were a little late, so they waited until de her return trip at the River Queen ma 9 o'clock and boarded ber.

A most provoking thing about part of the excursionists being unable to go down on the 6:30 boat was that part of the talent on the program was left behind. The program, however, was so varied and well arranged that there was plenty to entertain and amuse the excursionists. Those who were unfortunately left beind were not forgotten and many were the expressions of regret heard on all sides. On the arrival of the excursionists in the city fast night the management asked that t be stated that these holding unused tickets could have their money refunded today on application to any of the fol-lowing gentlemen: Mr. Harrison Dingnan, Atlantic building: Frank H Tk Board of Trade; or F. Standiford, No. 717 Eleventh street northwest. If, however, they desire to use them they will be recived today for passage on the Macalester

## PURIFYING CONEY ISLAND

Energetic Police Crusade Against the Halls of Vice.

IMMORAL SHOWS CLOSED UP

Ten "Jane Does" Engaged in the Pulmistry Business Appear in Court and Are Discharged-Fatin a, the Conchee-Couchee Enneer, Promises to Quit Posturing.

Coney Jshand, N. Y., Aug. 18,-Cant. Collins, of the Coney Island police, annonneed this morning that the crusade against vice on the island had begun in earnest and he and his men sent out orders and instructions to the owners of every house frequented by disorderly women that unless disposses proceedings were begun against the tenants within twentyfour hours, the owners as well as the

tenants would be arrested. Then the police went out and closed up five places of amusement sileged to have been conducted as immeral slows. The places closed were the "Museum of Anatomy," "Illusions," "Parisian Reveilles," "Annuated Pictures," and the "Maiden's Dream." These five places were closed up upon warrants; ssued by Mayor Wurster,

of Strooklyn. which will be vigorously prosecuted, wairants were also based for ten Jane Does, who are in the palmistry business. Word was sent to them if they came into point today and agreed to leave the island they would be discharged. Nearly all came carry, and the remainder were expected before night. Fatima, the couches-couches dancer in

the Turkish Society Theater, was in court this morning to answer to the charge of itamoral dancing. Capt. Collins said that it had been agreed in her case to suspend sentence if she would plead guilty and agree never to dance the conches-couches on the twinnd again. Fatima, he said, had agreed to this proposition. Sieda, of the "Congress of

Nations," had accepted the same terms, and her show had already closed down and moved, bag and baggage, to Pitts The "Streets of Cairo" had not closed lown, notwithstanding Selica, its favorite dancer, is now under arrest. Capt. Collins and his men will make further efforts to

close up the "Streets of Cair." There are several hotels on the island which the police regard as legitimate, but there are already twenty-one houses, alleged hotels, that have been condemned as ioral. Twenty-three arrests have been made heretofore, and of that number the grand jury have indicted twelve, and six

have been convicted. Three are will to be tried in the Flatash avenue police court before Magistrate Eteers, because it was found impossible to get a jury on the island who will convice any of the proprietors of the places.

DR. WM. FOWLER INJURED. and a Carriage. Dr. William C. Fowler, of the health office, and W. C. Simpson, colored, an employe of the street and sewer department, while riding their wheels near the corner of Fifth and F streets northwest, Jester-

day afternoon, collided, and both men were injured. Dr. Fowler was rather

seriously hurt, and is now under surgical attendance, while Simpson is wearing sevemi bandages over his wounds. Dr Fowler, having left his office, was riding north on Fifth street at a fale pace and had just passed F street When he collided with Simpson. The riders fell to the ground, and before they could arise buggy with Assessor Trimble in it and before the horse would be stopped the mimal dashed upon Dr. Fowler, rendering him unconscious. He was carried into

the residence of Mr. Chap. Lord, at No. 610 Fifth street. Health Officer Woodward was summoned from the District Building. He soon restored Dr. Fowler to consciousness and injured man had received on the back

Fowler was then removed to his home at No. 1141 Fifth street in a private conveyence. Simpson was lucky in emerging from the

mix-up with a painful bruise on the right

Run Over by a Wagon. Richard Queen, colored, was yesterday afternoon found by Officer Brown as the Aqueduct Bridge, suffering from an inury to his right foot, said to have been caused by his being run over by one of Knox's Express wagons, at Twenty-ninth and M streets northwest. He was taken to his home, So. 1073 Twenty-ninth street, in a patrol wagon.

A Sensible Mother. "My nother was poor," said a jolly young fellow, "so she taught her boys to wait on her. One prepared the food according to her directions, another hid the table and a third had to wash the dishes when the feast was over. We had more for than any other chaps on that block. When dinner was

nearly ready she used to say: "Now, boys, I must ren away and make myself pretty." And then she would come to the table as jolly as a lark and keep on routing the whole time with her bright

talk." What a picture this is to set beside the drudge-woman, slaving for a thankless family of loots, who scorn to do a stroke of what they call "woman's work." It is the greatest calamity in the world to be poor. A far greater calamity is the conviction-which must fall like a stroke on many overworked mothers-that you ha sons or daughters to brutalize daily living.-Chicago Post.
